

Visual Preference Survey

In the back of the room, you'll find two large posters and a laptop presentation with pictures of contrasting design styles for different development types. Please consider the photos, then choose the picture that best represents what you'd like future development in Morrisville to look like. Add any comments or qualifying remarks (e.g. "I generally prefer A, but would like to see...") in the space provided.

Please check **one** preferred design for each category:
